

Bringing Innovation and Thought Leadership to Revolutionize Testing Services

Your business depends on
software, which needs to be as
reliable as possible

Our differentiators:

Proven Track Record

- Best Practices replicated
- Reduced downtime and maintenance for a Utility Co.
- Lowered TCO and reduced testing timeline for a Technology/Financial Co.

Domain Knowledge

- Re-usable assets to reduce testing time
- Independence on complex landscapes
- Centralized Quality control for operational excellence
- Internal Controls, Compliance and SOX

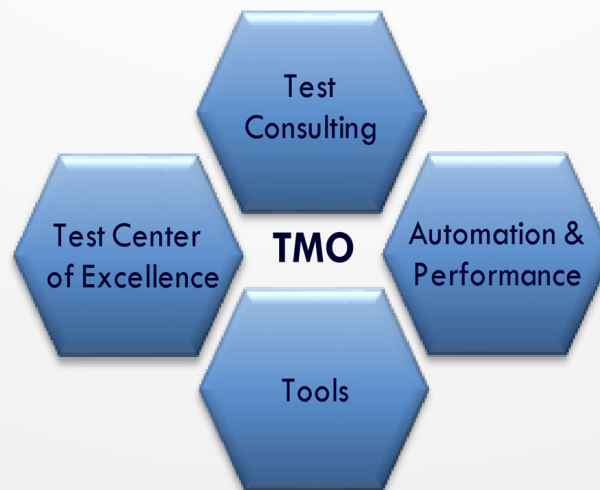

Test Automation

- Test Cycles speed up by 90%
- Test Execution independent of business resources
- Faster ROI
- Create ever increasing Test Coverage

Enterprise Services Quality Assurance

Resolve the lack of standards, tools, metrics, and templates for quality assessment with our TCoE Capabilities.

Testing capability is sustainable and reusable; it helps to evolve at minimal cost. It is a reflection of the best practices at Stellium, how we operate in the SAP Solution Landscape.

Stellium combines the power of deep functional and industry expertise, analytics and optimization sciences, process engineering and advance digital technologies to deliver inventive solutions.
